1005 Pope Road
St. Augustine, FL 32080**

Ariel Release Form

- 1) ALWAYS position lift far enough away from power sources to ensure that no part of the lift can accidentally reach into unsafe area. This includes full extension of the boom through 360 dg rotation.
- 2) ALWAYS operate only on a firm and level surface. NEVER use on surfaces that do not support the equipment with its rated load capacity and resulting force exerted on the outriggers during boom extension and rotation.
- 3) ALWAYS keep yourself and all personnel away from potential pinch or shear points.
- 4) ALWAYS report any misuse of equipment to the proper authorities. Horseplay is prohibited.
- 5) ALWAYS maintain good footing on the work platform. NEVER wear slippery soled shoes.
- 6) ALWAYS make certain all personnel are clear and there are no obstructions before repositioning basket.
- 7) ALWAYS cordon off area around the outriggers to keep personnel and other equipment away from it while in use
- 8) ALWAYS stay clear of wires, cables, and other overhead obstructions.
- 9) ALWAYS engage the boom travel locking pins before towing the trailer.

Nifty Lift Damage Repair Cost

The following parts lists are some of the things that can be damaged from a careless renter or operator. You the renter, are responsible for bringing back the machine in the same shape as you are taking it out. You may want to walk around the machine to familiarize yourself with it condition. If you damage anything on this machine you will be charged for the repairs of the unit. You will be charged for the cost of the parts plus \$55.00 per hour to repair it. In most cases just a little thought about what you are about to do, and how you are going to do it will save you from damaging this machine. If you can't do it safely don't do it.
